”

Company

Our mission

Delivering the world's best customer experience every day

Our values

We support our customers

Relationships are at the heart of our business. We strive to be indispensable to our customers by delivering exceptional products, services and experiences every day, and we promise to support them in everything we do.

We offer what is right

Customers choose us because they trust our brand and our people. We earn this trust by ensuring that everything we do is reliable, consistent and honest.

Our vision

To become indispensable to our customers by providing them with differentiated products and services to help them realize their aspirations.

We make things great

We achieve an unrivalled level of excellence in everything we do, focusing on the greatest opportunities to benefit our customers. From our innovative products to our world-class customer service, our customers expect the best, and our teams are proud to deliver it.

Customers & Partners

They trust GEM-BOOKS.

“We provide eLearning content via GEM-BOOKS to major banks such as Desjardins and Laurentian Bank, with over 16,000 users in North America,” said Mario Gregoire, CEO of the Financial Services Professionals Council.

03

“ In addition to your book-keeping ”

No matter which accounting software you use, GEM-BOOKS consolidates all your company's management activities online. (In addition to your bookkeeping)

Reducing costs. As GEM-BOOKS is a Software as a Service (SaaS), all data is stored in the cloud. As a result, you no longer need to install and run applications on your own computers. Hardware acquisition costs are eliminated, as are data entry and maintenance costs.

Comprehensive, accessible and intuitive business management software. A multi-branch, multi-lingual and multi-currency platform. GEM-BOOKS is an accounting software that you can always extend with additional modules. What's more, our user-friendly interface makes it quick and easy to get to grips with the platform. And of course, we know that your time is precious. That's why GEM-BOOKS is a complete, affordable solution to all your business needs, easy to integrate into your current way of working.

GEM-BOOKS - is a complete, web-based accounting software package. Above all, it links all aspects of business management, from data entry to invoicing, financial reporting and much more.

Basic functions such as online invoicing and payments, customer management, supplier management and inventory management are offered free of charge. Includes CRM.

You will love GEM-BOOKS because:

1. You can access it from any device, as long as you have an Internet connection. These can be PCs, Macs, iOS or Android devices.
2. You'll save time by eliminating the need to repeatedly enter data into multiple accounting, management and administration programs.
3. Your accountant will be able to access your accounts directly on the web.
4. It's very easy to use. Resources such as frequently asked questions and a support hotline will quickly make you self-sufficient.
5. It's absolutely safe, thanks to our real-time control systems and monitoring protocols.
6. Say goodbye to updates, backups and network failures.

Security

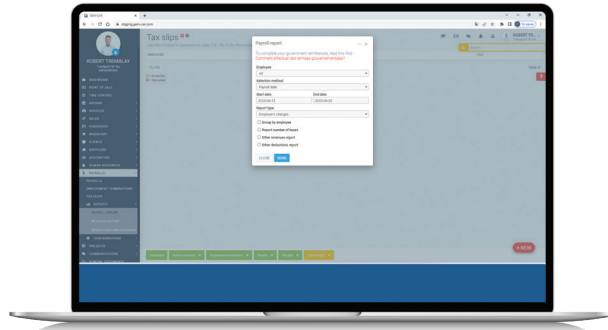

Choose from a number of predefined roles that give specific access to a group of users.

Log of all changes made to the platform, with date and user modifications.

05

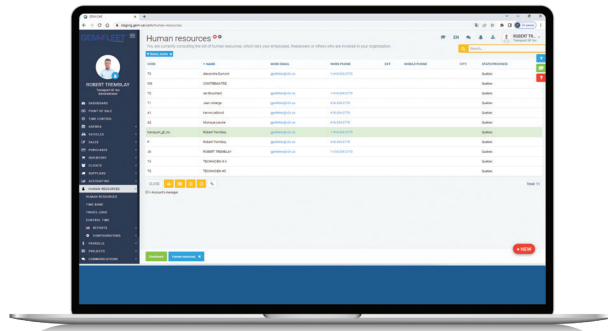

Payroll GEM-PAY

GEM-PAY is our online payroll module that enables you to pay employees by direct deposit, while centralizing payroll and human resources data, and producing annual taxable income summary reports, records of employment and automobile expense reports. Payroll table updates are seamless and automatic. Save valuable time with GEM-PAY's employee payroll function. Working with GEM-BOOKS and GEM-PAY means working with modern accounting software that emails pay stubs to employees all at once.

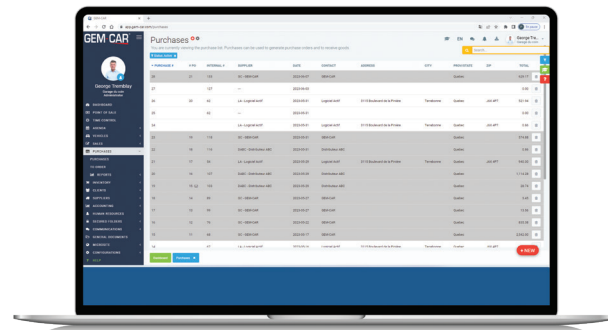

HR Human resources

Human resources management module
 Document management: CVs, contracts, photos and end-of-contract documents.
 Job descriptions, date of hire, date of last CPR course, etc.
 Sensitive information: salaries, N.A.S, bonuses, dates of birth, one-click access suspension or cancellation.

\$ Payment

Get paid quickly by e-mail and SMS
 Integrated SMS and e-mail payment solution for GEM-BOOKS. Enter your payment provider's details, and customers can pay you by credit card, on an automatic basis.

Capture a supplier invoice from an image

Upload a supplier invoice to your computer, take a photo of it with your smartphone and turn it into a transaction.

Importing and configuring data Implementation: 3-step process

- Step 1: Configuration**
General ledger import and configuration
- Step 2: Initial trial balance**
Enter your initial trial balance or opening balances
- Step 3 Data import**
Transfer up to 5 years of history from Sage 50 or Acoma, or import only your receivables and payables chart of accounts.

Secure document Sharing confidential documents

Developed in collaboration with leading North American accounting service providers to offer a secure document sharing module that meets the needs of professionals handling confidential data. GEM-DOC is a secure cloud-based software solution for managing secure documents and electronic signatures. Customers can connect to our solution to access files. All hosted on Canadian servers.

Electronic signatures Module Tax Synchronisation for DTMax and Tax prep

Electronic signature module for approval of quotations, work orders, replacement vehicle rentals, verbal authorizations for additions, vehicle release slips and final invoicing. Automated for T183 and TP1000 forms.
 Tax sync module for DTMax and Tax prep
 Send all your DTMax tax reports to your customers in a secure folder in just a few clicks. Request a signature on T183 and TP1000 forms and get paid by credit card in the same operation.

API Build an e-commerce solution with Shopify or WooCommerce.

Use it in-store directly from your cash registers. What's more, you can easily integrate your favorite e-commerce application to synchronize your physical inventory in real time and manage the accounting side in GEM-BOOKS. Connect our API with Shopify and the WooCommerce plugin for Wordpress.

CRM Easily connect GEM-BOOKS to Mailchimp for mass mailings that reach your recipients.

Our CRM module, a customer relationship management solution, automates the flow of e-mails, text messages and marketing campaigns. Our tool automatically unifies communication from multiple platforms such as Gmail, Outlook and Yahoo. It's an easy way to promote the work at hand, as well as to send out promotional campaigns.
